8. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Kato and Ridland. The present invention differs from Kato and Ridland in the following respects: (1) the scope of the present claims are narrowed with the use of the transitional phrase "consisting essentially of . . .", (2) the present claims relate to a solution composition, not a fiber, polyester or some other solid composition, and (3) the phosphorus compounds particularly those recited in independent claim 28 are not taught in Kato and Ridland.

9. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including Kato and Ridland to render the present invention anticipated or obvious to one of ordinary skill in the art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
